John Foster

*"...the painting must flow out from the heart as
easily as the signature flows from the hand –
not from the overcareful mind."*

John was a New Zealand artist and farmer who lived most of his life on a farm near Wellsford. He also spent several years living in Mangawhai Heads.

An artist for over 30 years, John was a prolific painter and printmaker. During his lifetime he created 15 large murals, several hundred small paintings and many prints. He had over 50 exhibitions of his work at commercial and public art galleries, and his murals were featured on television several times.

We are privileged to tell his story and have on display a selection from this large collection of prints, paintings and murals, some of which are available for sale.
